

Implications of Simulation Training in the Trucking Industry

APRIL 22ND 3:00 PM

Are today's students' student learning styles and pre-skills changed by the gaming culture? Does it change simulation's relevance in various contexts and its value during different stages of the educational process. How does simulation affect pedagogical planning, student orientation, debriefing methods, and instructor commitment?

Join us to share your insight.

Every Monday at 3:00 PM, the Voc Talk Café focuses on a specific trade sector but remains open to all vocational educators. The first 15 minutes are dedicated to information and the next 45 minutes to discussion and exploration.
