du Québec**

Sherbrooke, December 3rd 2020

Object: Vocational Training Observatory of Quebec Launch Event

Good day to all of you,

You receive this email as an actor of Vocational Training in Quebec.

The Vocational training Observatory invites you to its virtual launch (<https://uqac.zoom.us/j/3803953308>) on December 10, 2020 at 1:30 p.m. and asks for your cooperation to broadcast the press release that will be sent to you shortly, in your network.

The Observatory brings together professors from the five universities offering the Bachelor of Professional Education program (UQAC, UQAM, UQAR, UQAT and UdeS), players from the vocational training and labour market communities.

Its first objectives are to support VT teachers in their professional development as well as to position and publicize Vocational Training.

Please contact us at this address for further information. We thank you for your cooperation and wish you a great day.

Looking forward to seeing you at the launch!

Please note that the broadcast will be French
