

# Half-day workshop with a focus on supporting SI, SVI, & VT Students (in Employment, Stage, and Volunteer Settings)

Entering the world of work can be challenging for our SI, SVI, and VT students, particularly those who have required a great deal of support in a school setting.

In response to this challenge, consultants from both the English and French adult sectors are developing a resource kit that scaffolds the intersecting social, emotional, and organizational skills required to navigate work, volunteer, and/or stage settings.

We are inviting SI, SVI, and VT teaching staff and professionals to help brainstorm and guide the creation of this resource kit. The goal of the kit is to provide our students with resources that they can use to help transfer their learning to the workplace, both during their training or once they are hired. Please join us for a half-day of cross-sector collaboration and sharing of best practices on **May 18, 2022, from 9 AM to 12 PM**. Funds are available to release Adult General Education teachers, if required.

**Looking forward to working with you,**

Marc Brisson, Responsable du service d'accompagnement national pour les SARCA  
Karine Jacques, Orthopédagogue pour l'accompagnement national SÉC FGA-FP  
Matthew Kennedy, Consultant for Social Participation and Sociovocational Integration  
Avi Spector, Pedagogical Consultant, RÉCIT AGE, Riverside School Board
